Summary

I am a frontend web developer with 4+ years of experience building complex applications from scratch for startups. I have strong skills in HTML, CSS, JavaScript, and frameworks like ReactJS, VueJS, and TypeScript. I have enjoyed working on projects like landing page builders, conference management tools, and museum management systems. My experience as a frontend web developer has been very rewarding and has allowed me to grow both personally and professionally.

Experience

Frontend Developer
Softronet Inc
Jan 2022 - Present (1 year)
As a developer at this firm, I have had the opportunity to work on a diverse range of projects, including:

* A landing page builder, utilizing ReactJS and TypeScript for a seamless user experience
* A conference management tool, built with scalability in mind to accommodate a large number of users
* A museum management tool, utilizing a variety of JavaScript frameworks such as VueJS to meet the specific needs of our clients

In all of these projects, a key focus was on building scalable and reliable applications that could serve a global customer base. This required careful planning and attention to detail to ensure that the applications met the needs of our clients and were able to handle a high volume of users. The experience of working on these complex projects has been both challenging and rewarding, and has allowed me to gain valuable skills and knowledge in the field of web development.

Senior Frontend Developer
Upwork
Mar 2020 - Present (2 years 10 months)
As a highly skilled developer

* Earning over $100,000 in revenue through dedicated and hard work
* Achieving top-rated plus status on Upwork is a testament to the high quality of my work
* Demonstrating strong adaptability and a willingness to learn new technologies, which has been integral in the success of the project

I am extremely proud of the achievements we have made and am excited to continue growing and succeeding in the future.

Senior ReactJS Developer
DealIntelligence
Nov 2020 - Dec 2021 (1 year 2 months)

Junior ReactJS Developer

Dealintelligence

Jan 2020 - Oct 2020 (10 months)

Working at a B2B startup has been a highly rewarding experience for me. As a junior developer, I was responsible for building a prototype for a sales lead generation tool using ReactJS and TypeScript. Through my hard work and dedication, I was able to scale up the tool to meet the needs of our customers and was eventually promoted to a senior developer. Some notable achievements and highlights of my time at the startup include:

* Gaining valuable skills in web development and working with a talented and dedicated team
* Helping to drive growth for the company through the development of a successful sales lead generation tool
* Being recognized for my contributions and promoted to a senior developer

Overall, this experience has allowed me to grow both personally and professionally and has been a great learning opportunity.

Frontend Developer

Relion

May 2019 - Dec 2019 (8 months)

Working at a startup that provides visual charts using analytical data has been a challenging and rewarding experience. Some notable highlights of my time at the company include:

* Working with a variety of technologies, including ReactJS, and experiencing firsthand the flexibility and performance it offers
* Thriving in a fast-paced environment, which has provided numerous opportunities for growth and development
* Being a part of a dynamic team that is dedicated to providing high quality data visualization and analysis to our clients

Overall, this opportunity has allowed me to expand my skills and knowledge in the field of data visualization and has been a great learning experience.
